LEG INSTALLATION

3. Install legs on mainframe using (4) ¼" x 1-1/2" Phillips head screws and locknuts.
NOTE: Make sure the legs are installed so that the bends of the legs face the outside of the frame. This is necessary to provide the maximum footprint.

Bolts must fit snugly into holes for secure leg mount.

GENERAL CARE & CLEANING:

Periodically inspect tightness of all screws, bolts, and nuts.

Winco furnishings are built to provide durable reliable service when properly cared for. In general all of our products should be 1) Cleaned 2) Rinsed 3) Allowed to air dry. It is important to note that disinfecting a product is not the same as cleaning the product. Disinfectants alone will not provide adequate cleaning, they do not have grease or oil cutting properties to remove grime or hair and skin oils. Over time, the appearance and feel and performance of your upholstery may diminish if not cleaned properly

CLEANING:

Remove grime, hair and body oils; Your furnishings should be cleaned with mild soap & water solution and a damp cloth on a regular basis. Avoid harsh detergents or chemicals that could damage the finish of your product. If the furnishing is disinfected with chemicals or bleach, it **MUST** be wiped off using only clean water on a damp cloth and then be allowed to air dry. Failure to rinse with clean water can result in a build-up of residues over time that can damage your product.
