

Patient comfort is our most important product

For over 60 years, Winco has been manufacturing medical furnishings with the philosophy that "Patient Comfort Is Our Most Important Product". Always at the forefront of our design process, Winco products are uniquely constructed; no wood, springs or other hard metal surfaces in the seating areas to cause pressure points. We utilize wide elastic bands for total support and incorporate Lquicell® into the cushions for long-term comfort. Seating positions and recline angles are optimized for the most comfortable and durable seating possible.

BEST SELLERS

The ART & SCIENCE of COMFORT

www.WincoMfg.com

Winco is excited to announce our latest **Design Innovations** with 2 new product families.

You've asked for more contemporary designed recliners for use in patient rooms, long term care, oncology and other treatment areas. Winco is introducing our new recliners in direct response to these requests. The Designer Care Cliner offers contemporary style, modern form, and above all, comfort for your patients.

We are also proud to showcase new versions of the best-selling Winco classics which incorporate special saddle cushion seating for patients that are prone to skin breakdown. The "S" series adds the Comfort Care™ Saddle Seat to provide greater pressure relief, unload bony prominences, provide enhanced skin protection and promote proper leg alignment.

NEW FORM

LiquiCell® seating technology enhances comfort, reduces fatigue, relieves pressure over long seating times and improves blood perfusion.

Wide elastic bands in seat and back frame provide added support and comfort.

Durable contoured urethane armrests for comfort and upholstery protection.

Fully upholstered in a wide variety of colors and styles. Built-in Heat or Heat/Massage system available. (Additional torso supports, contoured headrests and side cushions available)

Smooth, convenient Trendelenburg Positioning release system on back.

Optional IV pole and/or oxygen tank holder available.

Non-porous, durable fold-down side tray contains spills. (Optional tables available)

Durable Nylon Total-lock and Directional-lock casters for easy maneuverability.

NEW FUNCTION

Leg adductors, in conjunction with medial thigh separator and deep leg troughs, promote proper leg alignment.

Comfortable, padded armrests with guards to keep upholstery looking great.

3 position lock-bar allows for safe, comfortable positioning.

Plastic side panels help create a "safe zone" for patient care without pinch points.

Padded push-handle for easy maneuverability

Waterfall front eliminates pressure points in leg trough

Two layers of high resiliency foam provide increased comfort and decrease the probability of pressure sores.

Durable Total-lock casters (in rear) allow for better handling and control.
